### PROFESSIONAL SUMMARY

Frontend and Full Stack Developer with over 12 years experience building modern web applications, merchant dashboards, user interfaces, and server infrastructure solutions. Skilled in React, Next.js, JavaScript/TypeScript, Git, API integrations, UI implementation from Figma designs, and Linux server management.

Experienced collaborating in multi-developer environments using GitHub workflows and scalable frontend architectures. Strong understanding of responsive UI development, deployment workflows, hosting environments, reverse proxy configuration, and web performance optimization.

Also very well experienced with backend technologies and development tools including Python programming, PHP, backend integrations, server-side scripting, and application deployment workflows. Passionate about building clean, scalable, and user-focused digital products.

### TECHNICAL SKILLS

#### Frontend Development

- React.js
- Next.js
- JavaScript (ES6+)
- TypeScript
- HTML5
- CSS3
- Tailwind CSS
- Responsive Web Design
- UI/UX Implementation
- Figma to Code Conversion

#### Tools & Collaboration

- Git & GitHub
- Cursor AI
- VS Code
- Figma
- Postman
- Agile Collaboration
- Branch Management
- Team Development Workflows

#### Hosting & DevOps

- Linux Server Management
- Nginx
- Reverse Proxy Configuration
- VPS Deployment
- Domain & SSL Configuration
- HestiaCP
- SSH & Server Security

#### Backend & APIs

- REST APIs
- Node.js
- Express.js
- Authentication Systems
- API Integration

## WORK EXPERIENCE

### Frontend Developer / Full Stack Developer

Freelance & Personal Projects | 2023 – Present

- Built responsive web applications using React.js and Next.js.
- Converted Figma UI/UX designs into functional frontend interfaces.
- Developed merchant dashboards, user panels, and admin interfaces.
- Collaborated with other developers using GitHub branches and pull requests.
- Integrated APIs and optimized frontend performance.
- Configured VPS hosting environments and managed Nginx reverse proxies.
- Managed SSL certificates, domain configuration, and production deployments.
- Worked with AI-assisted development tools like Cursor AI to improve development speed.

### Key Achievements

- Successfully collaborated on multi-developer frontend projects.
- Built scalable dashboard interfaces for modern web applications.
- Deployed and maintained production-ready applications on Linux servers.
- Improved workflow efficiency using Git and branch-based collaboration.

## PROJECTS

### Rapid Super App (Team Project)

- Filled the role of C.T.O. and worked as Senior Developer handling merchant dashboard and related interfaces.
- Collaborated with another frontend developer using GitHub develop branches.
- Implemented responsive UI components based on provided Figma designs.
- Contributed to scalable frontend architecture and reusable components.

### VPS & Nginx Infrastructure Management

- Configured reverse proxy environments for multiple applications.
- Managed SSL setup and HTTPS routing.
- Troubleshoot server deployment and networking issues.

### Web Application Development

- Developed modern frontend interfaces using React and Next.js.
- Built responsive layouts optimized for desktop and mobile devices.
- Integrated APIs and authentication systems.

## EDUCATIONAL BACKGROUND & CERTIFICATES

- National Youth Service Corps (NYSC) — Nassarawa State (2020)
- Olabisi Onabanjo University — B.Sc. Computer Science (2019)
- Queenmaris College — SSCE (2009)

## SOFT SKILLS

- Team Collaboration
- Communication
- Problem Solving
- Fast Learner
- Attention to Detail
- Time Management
- Adaptability
- Critical Thinking

## ADDITIONAL INFORMATION

- Available for Remote and On-site Roles
- Open to Frontend Developer, React Developer, Full Stack Developer, and Technical Support Roles
- Comfortable working in startup and fast-paced development environments
